Drinks

tap cards, on a tab or a maximum budget

We offer several options for drinks.

Tap cards
What makes ‘t Taphuys unique: pour your own beers and wines at the tap walls. Easy to use, fun to discover and a wide selection. You decide how many tap cards and how much credit.

Give everyone a tap card with a set amount, or share several cards. Each card has a 3 euro deposit, refunded when you return the empty card.
Card empty? Depending on the arrangement, top it up at your own expense, add it to the tab, or return it.

On a tab
Your group orders and we put everything on 1 tab, together with the food.
Pay at the end of your visit or by invoice.
We can agree on a selection in advance, for example to exclude expensive drinks or decide whether tap cards can be ordered.

In some cases, each guest can receive a fixed number of tokens for a limited number of drinks. We simply add these drinks to the tab.

maximum budget
The same as a tab, but with a maximum budget agreed in advance.
Once it is reached, we close the tab. Guests can then continue ordering at their own expense.

We agree this with you and let you know when the budget is nearly reached.
